The China Ithil.

HONGKONG, TUISDAY, LUPUST 12, 1884 On the Oth July we published a cablegram despatched from London on the previous day, stating that Mr Ferry had described, in the Chamber of Deputies, the effeir at Langson as a regular ambusic laid by the Chinese for the French troops. Excepting a telegraphic despatch sent by General Millot to the Governor at Saigon, this cablegram contained the only French official account of the Langson affair that had been received here up to the arrival of the mail last night, Last night's mail, however, brings us a report of what M. Perry said in the Chamber of Deputies on the occasion in question. Bis statement is of considerable interest and importance, because, if the affair at Langson was a fair light prought on, as the Chinese say, through the impetu-sity of the French, then China will at least enjoy the advantage, in any struggle that may ensue between her and France, Posting of all printed matter and of the moral support of foreign nations, Presuming that Chius had contracted to evacuate Tonquin immediately the Convention was signed, yet the synchation of a fortress by the forces of one nation and its. occupation by those of another have to be 3.40 P.M.—Late Letters may be posted done deliberately and in order, and a certain amount of delay in such proceedings is frequent and excusable. M. Ferry is reported to have said :---A detailed report has been received from General Millot concerning the Tangnon

affair. It is olear from this account that. contrary to what the Chinese Government had instituted, it was not the French troops who ired the first shot, but it was the Chinese regular troops who opered fire under conditions which in our eyes constitute an ambush treacherously prepared. In this flagrant violation of the Treats of Tientain, whoever the chiefs may be that are responsible for it, whether it be the local chiefs or the chief of the centra Government, we have bought that the rinciple of a necessary reparation was involved (Applause) We have thought that having given China, and the whole world, striking proofs of moderation lately by nest demanding an indemnity which might share been contacted, the time has come to remind these who forget their treaties that such things have to be paid for. (Applatuse.) We have informed the Imperial Covernment of our view of the case, and we are awaiting its reply. We limit), nor will more than two such orders, will communicate that reply to the Chamber, but we can now give it the assurance that the Government is in a position to enforce respect of the Treaty, and to place it beyond the reach of madly imprudent violations and nothing will be spared to safeguard with constant prudence, but with a firmness nothing can shake, the rights and interests of France. Directly the actual appointment was made this was put in motion, and counsel's opinion was received on the 3rd inst, too late, however, to be acted on. The whole staff has been working late and early to get the business expedited, and, as will be seen by the report in another column, application was made to the Court to anticipate matters. It was hoped that by great exertions the case could have been brought on by Aug. 8, so as to permit of a call being made. Mr. Justice Chitty, however, did not see his way clear to depart from the ordinary course, and the matter cannot be taken until after the long vacation, that is, at the end of October. in the meantime the list of contributors will be lodged, and notice sent to all of them, and immediately the Chief Clerk commences business the matter will bu pressed on With regard to the other affairs of the Corporation, advices from Melbourns indicate the probable abandon. ment of the local proceedings, and from Mauritius news comes that what has been done has proved to be right. For the benefit of creditors we may point out that claims should be sent to the liquidator before Nov. 20 next. At the Central Court, before the Recor-

Mr E. Clarke, Q.C., who appeared for the defendant, addressed the Court in mitigation of punishment, and reminded the judge that the defendant had already been in custody since the 7th May, and that the jury had acquitted him upon the more serious portion of the charge. Mr Keith-Frith, who appeared for the prosecution, said that on the part of those he represented there was no desire to press the case harshly against the defendant. The Recorder said he could not help feeling that the defendant had already suffered very severe punishment. He thought justice would be satisfied by his ordering him to be imprisoned for seven weeks from date of his conviction. The sentence having thus expired, the defendant was released the same day.
